up-lift

by Redesign

Up-lift collection brings innovation in the segment of functional sofas. The simple raising up of the rounded form of the back rest causes the automatic lift of the leg rest turning it into bed. Apart from the armchair, the Up-lift collection also includes a 1,5seater and a 2seater sofa.

The goal of the Design Awards is to identify, present and honour unique design trends which raise level of the design scene. The premium international prizes are awarded to top quality products and projects. The uniqueness of this armchair has been recognized and brought **Up-lift** two awards:

Interior Innovation Award 2014 Winner
German Design Award 2015 Special Mention
